San Francisco BAY AREA

A tropical scene featuring palm trees and blue water splashes. The background is a clear blue sky with a few wispy clouds. In the foreground, several palm trees stand tall against a bright, warm sunset or sunrise. Large, dynamic blue water splashes and droplets are scattered throughout the scene, particularly on the left and right sides, creating a sense of motion and energy. The overall composition is vibrant and suggests a coastal or island environment.

Mobile Development

iOS Development
(Swift 3, Objective C)

Android
(Java)

WEB

Government websites need not be clunky and hard to navigate. They ought to be inviting and user friendly without sacrificing functionality.

We create modern intuitive websites for civic entities. CityXcape makes .gov sexy!

MOBILE

Millennials are now the largest population. Catering to this demographic is vital to any organization's future success.

At CityXcape, we build and design mobile apps that attract and cater to millennial and Gen Z.

LOCAL ADVERTISING

CityXcape is a platform in itself. It is a real time advertising ecosystem that lets you broadcast information at specific location within cities.

Broadcast anywhere ranging from half a mile to the entire city. The CityXcape application is your de-facto marketing tool for reaching people in the city.

URBAN DATA

GeoXcape is our live census database. It collects city census such as pedestrian traffic, commuter travel, population size, and other data valuable to transit authorities, planners, and property developers.

Let technology work for you, our GeoXcape application is more precise, granular, and affordable than any population survey in the marketplace.
